VERDANT ACRES → LAND BANKING, FARMING and RESORT

Rooted in Nature. Built for Prosperity.

ABOUT V.A.R

Verdant Acres & Resort (V.A.R) is a nature-inspired investment destination by **309 Development Limited**, located in Alabata, Ogun State.

Designed around land banking, farming, recreation and lifestyle, V.A.R gives investors the opportunity to own land while exploring productive agricultural opportunities and enjoying a nature-filled resort experience.

More than land. More than a resort.
A space where investment meets nature, leisure and future prosperity.

VERDANT VINE CASH CROPS

Designed for quick turnover and regular harvests, the cash crops cluster includes staples like maize, cassava, tomatoes, vegetables, and plantain. These crops feed millions daily and command consistent demand in local and regional markets. For investors, they offer flexible revenue streams with one to three harvest cycles annually, ensuring steady cash flow and immediate value.

V.A.R
VERDANT ACRES AND RESORT
"Rooted in Nature, Built for Prosperity"

Development by 369 Development Ltd

VEGETABLES

Fresh, fast-growing, and consistently in demand, vegetables offer an opportunity to cultivate high-value produce for local markets and food supply chains. With proper farm management, vegetable production supports diversified agricultural activity and regular harvest cycles.

V.A.R
VERDANT ACRES AND RESORT
"Rooted in Nature, Built for Prosperity"

Development by 369 Development Ltd

CUCUMBER

Cucumber is a versatile crop with strong demand across households, hospitality, food services, and retail markets. Its relatively short growing cycle makes it a practical addition to a diversified agricultural portfolio, providing fresh produce for a growing consumer market.

V.A.R
VERDANT ACRES AND RESORT
"Rooted in Nature, Built for Prosperity"

Development by 369 Development Ltd

PLANTAIN

A staple across Nigerian households, plantain combines strong local consumption with year-round market relevance. Its versatility and multiple uses make it a valuable food crop, while its perennial nature allows the plantation to continue producing across successive harvests.

V.A.R
VERDANT ACRES AND RESORT
"Rooted in Nature, Built for Prosperity"

Development by 369 Development Ltd

CASSAVA

Cassava is one of Nigeria's most important staple and industrial crops, valued for its adaptability and wide range of uses. From garri and flour to starch and other processed products, cassava serves both food and industrial markets, making it a strategic crop for diversified agricultural production.

AQUACULTURE

Aquaculture brings sustainable fish production into the agricultural mix, catering to Nigeria's strong demand for fresh and affordable fish. With controlled production and efficient farm management, fish farming offers an important avenue for strengthening food production and diversifying the project's agricultural activities.
